HISTORY OF THIS PROJECT

REPresenting Our Schools Art Project began in 2001 as a way to showcase student talent while raising funds for REP Foundation programs. The Collections alternate between featuring elementary school-aged artists and those of the middle/high school years (secondary).

Each year, artwork is submitted, judged and selected for the new Notecard Collection. The selected artwork is then reproduced as notecards and made available for sale to the general public. The student artists are honored at the Evening of Appreciation in the spring and the new notecard collection is released for sale that evening. The featured artwork is also framed and displayed in the Educations Services division at the District Office for one full year. The California Consortium of Educational Foundations presented the REP Foundation with its Golden Apple Award for the *REPresenting Our School Art Project* in 2001.
