

**REPresenting Our Students Art Project  
2017**

Eleven secondary student artists were honored for their winning artwork in the 2017 *REPresenting Our Schools Art Project*.

The art project alternates yearly between elementary and secondary schools. Over 90 pieces of secondary artwork were submitted from various school sites in RUSD in the spring. The submissions were then reviewed by a panel of judges.

In addition to being recognized during the Evening of Appreciation, photocopies of each artist's original art are framed and displayed at the district office for a full school year. The art is reproduced in a packet of notecards, which are available for sale. All proceeds help REP to support art opportunities for schools.
